About Jash

Jash Engineering Ltd is an ISO-9001:2008 company dedicated to offering varied products for use in Water and Wastewater Pumping Stations and Treatment Plants, Storm Water Pumping Stations, Water Transmission Lines, Power, Steel, Cement, Paper & Pulp, Petrochemicals, Chemical, Fertilizers and other process plants. Headquartered at Indore, India. We have four well integrated state-of-art manufacturing facilities in India and one in USA. Together with its subsidiaries, Jash has a combined experience and history of over 350 years and installation references in more than 50 countries worldwide. Technical tie ups and acquisitions have ensured that from the start of Pumping station to the outfall end of a treatment plant, Jash can be a single source for supply of most of the mechanical equipment required in a primary or secondary treatment project. Our team is there to serve our clients and help achieve the common goal of creating a sustainable environment for all time to come. Join us www.jashindia.com
